What's more, if you do not maintain at least the 6" (15cm) loss for at least 30 days, you'll receive a free treatment.* Natural clay solution draws out toxins whilst the specialist wrapping technique actively compresses soft fatty tissue. This creates an instant inch loss, firming and body sculpting effect. After your treatment, the clay remains in the pores of the skin and your inch loss can continue for 3 - 4 days. This is not a water loss treatment. In fact, we recommend you drink water regularly after your treatment to enhance detoxification, flushing the toxins from your body.
